NOVELIC is a high-tech company developing products in the fields of sensors, industrial electronics and wireless communications. We cover all subsystems of a modern electronic product under one roof: Embedded HW/SW/FW, FPGA, ASIC, RF IC, etc. **NOVELIC** has dynamic and creative working environment with excellent working conditions. Responsibility and opportunity to lead and drive the projects is given. Stable long-term career roadmap for proven team members is our goal, so as yours.

We invest in excellence, offer excellence and ask for excellence.

We are pleased to enable students of the final years to be a part of our internship program in the area of:

Software Testing

As an intern within NOVELIC internship program you will be writing unit tests, performing integration test for various company projects. During learning process, you will work closely with our development team on defining test scenarios and provide feedback for defects and missing features.

We offer:

- Paid internship program with flexible working hours for a period of 6-9 months
- Work on various interesting projects
- Close collaborate with mentor and our experienced engineers
- Project results can be used for writing of B.Sc. or M.Sc. thesis
- The chance of full-time position when the practice is over

What competences we are looking for:

- Final year/master studies at relevant University in area of Electronics/Computer science
- Knowledge of one or more general purpose programming languages (C, C++, Python) is preferred
- Knowledge of git is a plus
- Embedded SW knowledge is a plus
- Solid knowledge of English, both written and spoken

As a part of our team you should be:

- Interest in solving complex and time critical problems
- Positive, motivated and eager to learn new things
- Able to think creatively and produce "outside of the box" solutions
- Prepared to tackle new technologies

If you are interested in internship in a dynamic environment with possibility to improve knowledge in the area of Software Testing and to work with some of the best engineers, send us your CV and a brief motivation letter in PDF format to the following e-mail: internship@novelic.com with following subject: <NIC_Internship_ST_YourName>.
